

Ref. DD(H)-I/2019-20/232

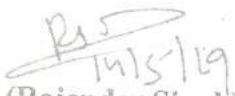

Dated: 14/5/2019

An Appeal

It is to inform that in compliance with Solid Waste Management Rules, 2016 all the Bulk Waste Generators/ Waste Generators who are producing more than 100 kgs. per day of municipal solid waste or having an area of 500 sqm will be required to have their in house setup to segregate, manage, treat and dispose their wet waste at their end.

In compliance with the said rules Noida Authority has prepared a policy for decentralized wet waste management which will remain published on portal www.noidaauthorityonline.com for next 15 days by that time request the public to give their comments on that policy, post which the final policy shall be placed on the portal and will also be notified for the mass.
